RapidCanvas

Welcome to the future of *financial planning & analysis* (FP&A)

Powered now by RapidCanvas a no-code, AutoAI platform.

Today started out great.

Now you've got to leverage data to improve forecasting accuracy, reduce errors and speed-up decision-making.

You know that AI would give you the best answer.

But you can't wait through months of an entire AI lifecycle, so it's back to Excel and pivot tables
With RapidCanvas you don't have to wait or retreat to existing, traditional data analytics and predictions.

You can get an initial enterprise AI solution in hours.

Make better data-driven financial decisions

Addressing challenges in FP&A

Financial Planning and Analysis (FP&A) departments in organizations are currently dealing with several critical challenges. Economic uncertainty and volatility due to socioeconomic factors make forecasting and financial planning more challenging yet more necessary than ever. Regulatory and compliance updates, such as tax reforms and accounting standards changes, require continuous monitoring and adaptation. Talent acquisition and retention in the FP&A field are increasingly competitive, augmenting the need for ongoing skill development and workforce planning. Teams are also understanding how to integrate modern technologies while ensuring data security. Successfully navigating these challenges is essential for FP&A departments to provide accurate, actionable insights for strategic decision-making.

Building the future of FP&A with AI

With RapidCanvas, FP&A teams get enterprise AI solutions within days not weeks or months. You start with your problem then using our predefined, vetted AI solution as a starting point, we use AutoAI to tailor your AI solution instantly. Within hours you have a prototype AI solution that delivers initial results.

From there, your team can continue improving the AI solution using the RapidCanvas no-code platform. If your team doesn't have the time or technical skills, we have a team of data science experts ready to help you improve your AI solution. Within weeks, you can deploy your AI solution as an app or dashboard for your team.

One platform, Many Applications

✓ **Improve Analysis And Reporting**

Streamline financial reporting by automating tasks, improving accuracy, and gaining valuable insights, using RapidCanvas.

✓ **Create Accurate Forecasts**

Enhance financial forecasting with AI and make better decisions by analyzing data patterns, providing accurate predictions.

Hear from our customers

"RapidCanvas has been instrumental in helping us at SFR3 to integrate our domain expertise with their turnkey solution. With their help, we've been able to migrate our legacy knowledge into a modern data stack and automate complex financial processes seamlessly.

The result has been valuable insights and analytics that we can use to make data-driven decisions. Their platform is ergonomic and intuitive, making it easy for our team to collaborate and positively contribute to high-value activities."

Ryoichi Sato
Director of Risk, SFR3 Fund

About RapidCanvas

RapidCanvas is a no-code AutoAI platform for business users to go from idea to live enterprise AI solution within hours, reducing time to value by 90+% of traditional AI build and deploy processes.
