The RapidCanvas promise

We believe that business leaders should be able to create tailored AI solutions without data science or code expertise or investing in professional services.

✔ **End-to-end solution**
Go from raw data, to data preparation to modeling to live insights, with RapidCanvas

✔ **Go beyond templates**
Use a conversational interface to work on your data without ever writing code

✔ **Never start from zero**
Use AutoAI to create an out-of-the-box prototype for your business problem

✔ **Automated modeling**
Automate the process of selecting, testing and building a model using your data, with AutoAI.

✔ **Business insights**
Create data apps that deliver insights

✔ **Bring your data from anywhere**
Ingest any data using 300+ data connectors

✔ **Data science expert in the loop**
Get support from our data science experts at any stage in your project

🤖 **AutoAI-Driven**
Leverage an entirely automated AI lifecycle for rapid results

300+
No-code modules for AI functions

👤 **Expert-supported**
Get help from data science experts to ensure solution performance

Customer snapshot

From small enterprises to Fortune 500 leaders, RapidCanvas is the platform of choice for businesses embracing AI transformation

"Suzlon is on a journey to use big data and AI to reimagine the future of our business. I am impressed with RapidCanvas as an emerging disruptive AI platform. They have streamlined the journey from idea to prototype to production. Their platform is incredibly user-friendly. Their preconfigured AI solutions for various wind turbine use cases precisely meet our business needs."
Lt. Col. Suunil Narula
CAO, Suzlon

Partners in our success

> "Partnering with RapidCanvas has enabled us to realize the value of our data much faster than we anticipated. Their platform and expert data science team have been instrumental in driving our success"

Don Curran
CTO, Shield Leasing

The RapidCanvas founding team brings together subject matter experts, researchers, engineers, and operational leaders who have been part of the evolutionary journey of the AI landscape for the last 20 years, across successful startups and multiple market-leading companies. The team has a singular mission: empowering business leaders to create tailored AI solutions without data science or code expertise or investing in professional services.

About RapidCanvas

RapidCanvas is a no-code AI platform for business users to go from idea to live enterprise AI solution within hours, reducing time to value by over 90%, when compared to traditional AI build-and-deploy processes. RapidCanvas creates out-of-the-box AI solutions tailored to your needs using our proprietary AutoAI technology. Our data science experts work with you to optimize the results to your satisfaction; we combine the efficiency of algorithms with the experience of human experts. RapidCanvas works with leaders in financial services, retail, renewable energy, and manufacturing.
