

# Welcome to the future of *risk management*

Powered now by RapidCanvas a no-code, AutoAI platform.

Today started out great.

Now you've got to leverage data to quickly identify and manage newly identified risks causing huge exposure to the organization.

You know that AI would give you the best answer.

But you can't wait through months of an entire AI lifecycle, so it's back to Excel and pivot tables.

With RapidCanvas you don't have to wait or retreat to existing, traditional data analytics and predictions.

You can get an initial enterprise AI solution in hours.

## Reduce and manage the impact of risk

## Addressing challenges in risk management

Risk departments are grappling with critical challenges in the era of increased digital presence and sophisticated criminal activity. The complexity of emerging risks, such as cyber threats and macroeconomic events like pandemics and downturns strains conventional risk management approaches. Risk teams have to navigate unforeseen disruptions in the digital era. The interconnected nature of global markets necessitates an updated understanding of cross-border regulatory frameworks. Striking a balance between risk aversion and fostering innovation is required, while also ensuring compliance and managing reputational risks effectively. The emphasis on environmental, social, and governance (ESG) factors also introduces sustainability and ethical considerations into modern-day risk assessment.

## Building the future of risk management with AI

With RapidCanvas, risk management teams get enterprise AI solutions within days not weeks or months. You start with your problem then using our predefined, vetted AI solution as a starting point, we use AutoAI to tailor your AI solution instantly. Within hours you have a prototype AI solution that delivers initial results.

From there, your team can continue improving the AI solution using the RapidCanvas no-code platform. If your team doesn't have the time or technical skills, we have a team of data science experts ready to help you improve your AI solution. Within weeks, you can deploy your AI solution as an app or dashboard for your team.

## One platform, Many Applications

### ✓ Assess Credit Risk

Utilize credit risk AutoAI solution from RapidCanvas to enhance credit decisions, managing risks effectively and optimizing credit processes.

### ✓ Detect Fraud

Safeguard your operations by identifying and stopping fraudulent activities seamlessly, with RapidCanvas AutoAI.

### ✓ Prevent Credit Card Fraud

Safeguard financial operations with RapidCanvas AutoAI-led credit card fraud solution. Improve security measures and halt unauthorized credit card use efficiently.

### ✓ Manage Trading Risk

Maximize returns and minimize risks with RapidCanvas AutoAI solution for trading and portfolio optimization.

# Using RapidCanvas, you combine your data plus the power of AI to solve your business problems

Align AI initiatives with your business objectives	Accelerate your AI journey with out-of-the-box tailored AutoAI solutions	Go Beyond templates with No-Code
<ul style="list-style-type: none"><li>● Start with your business needs, expected results and ROI to frame your business problem</li><li>● Match your business problem with an AI Solution instantly</li><li>● Achieve business outcome with solution in days</li><li>● Create visual interactive data apps, dashboards and reports to tell the business KPIs and outcomes story</li></ul>	<ul style="list-style-type: none"><li>● Address unique business needs without starting from scratch : state your business problem and AutoAI discovery process will generate a matching AI solution</li><li>● Achieve end-to-end AI solution with an out-of-the-box set up for all steps from data orchestration, data preparation, transformations, model building and testing, through to model deployment and data apps</li></ul>	<ul style="list-style-type: none"><li>● Modify your AutoAI generated solution using no-code interface to pick from over 300+ most used no-code AI templates to modify/edit the solution, if needed</li><li>● Ask conversational UI for availability of no-code templates or to create a custom template for you in real-time</li><li>● Use cloud-based no-code infrastructure for your solution</li></ul>

**Ryoichi Sato**  
Director of Risk, SFR3 Fund

## Hear from our customers

"RapidCanvas has been instrumental in helping us at SFR3 to integrate our domain expertise with their turnkey solution. With their help, we've been able to migrate our legacy knowledge into a modern data stack and automate complex financial processes seamlessly.

The result has been valuable insights and analytics that we can use to make data-driven decisions. Their platform is ergonomic and intuitive, making it easy for our team to collaborate and positively contribute to high-value activities."

## About RapidCanvas

RapidCanvas is a no-code AutoAI platform for business users to go from idea to live enterprise AI solution within hours, reducing time to value by 90+% of traditional AI build and deploy processes. RapidCanvas creates out-of-the-box AI solutions tailored to your needs using our proprietary AutoAI technology. Our data science experts work with you to optimize the results to your satisfaction; we combine the efficiency of algorithms with the experience of human experts. RapidCanvas works with leaders in Financial Services, Retail, Renewable Energy, and Manufacturing.
